

SPECIALTY SUBCONTRACTORS

Cloudbreak Collective elevates and clarifies nonprofit fundraising so that our clients have what they need to achieve their missions. We deliver calm, clear, action-oriented fundraising services for nonprofit organizations, *and* we convene independent fundraising consultants so they can provide streamlined, collaborative services for our clients too.

Cloudbreak enters into Independent Contractor agreements with consultants who maintain their own businesses outside of Cloudbreak and specialize in specific—often niche—services that complement and enhance the work Cloudbreak delivers for its clients.

Cloudbreak offers work to these subcontractors on a project by project basis, and does not guarantee to offer any minimum quantity of work per month. Cloudbreak pays collaborators using a negotiated hourly rate, and offers commission payments in line with the company commission policy.

Examples of specialty services that Cloudbreak may subcontract to specialists are:

- Graphic Design
- Prospect Research
- Event Coordination
- Restricted Grant Accounting
- Federal Grant Evaluation and/or Data Planning
- More!

For additional information about becoming a Cloudbreak Specialist, please contact Brittany Kirk, Founder and President at brittany@cloudbreakcollective.com.
